

V E N I C E

"Venice is the best vocal group in America right now. I love all kinds of harmony. But I particularly love theirs, because it's so natural. It's not like anybody else's. This is my favorite band in the world."

-- David Crosby --

"Venice, one of my favorite bands, is quintessentially Californian, with soaring harmonies. They sing and play their asses off. I've seen them knock out many unsuspecting crowds, taking the audiences, who had not come to see them, completely by surprise. It's such a pleasure to play with these guys because they have that power."

-- Jackson Browne --

Americana-Pop quartet, Venice is a band of brothers from Venice, CA. The band consists of two sets of brothers, Mark and Michael Lennon, and their cousins, Kipp and Pat Lennon who have been performing together since the 1980s and singing all of their lives. They have recorded and toured around the world performing for a loyal, devoted fan base with a deep catalog of rich songs from over 20 albums. Venice's trademarks are their harmonies, personal lyrics, and high energy, communal shows which garner them ovations and encores at virtually every performance they've given, from intimate theaters to sprawling festivals, across the US as well as in Europe.

Their hardworking career over time has earned them major record releases on Sony Music, Universal Music, Atlantic Records, and Vanguard Records. In the summer of 2024, Venice began working on songs for what would eventually become their brand-new album, produced by Michael Lennon, and releasing Spring 2025.

For over twenty years, Venice has enjoyed a great level of success in Europe, where their harmonies and musicality are considered a modern extension of what many Europeans call "West Coast Music." Their music reflects many of their influences while growing up in the small, eclectic, and culturally diverse beach town for which they are named. Venice's sound is familiar and fresh, combining their classic rock and folk influences in harmonies influenced by The Beach Boys, Eagles, and CSN. Many of their other influences are also evident on their latest released album 'Stained Glass', from their shared love of artists spanning many eras, from Steely Dan, Joni Mitchell, Paul Simon to artists like Rufus Wainwright and John Mayer. This album consists of songs about their family histories, themes of romance, renewal, love, and loss, and songs exploring the experiences of moving forward and looking back.

Over the years, Venice has made their mark with their distinctive vocal sound and harmonies. As a group or as individuals, they have performed and/or recorded with some of the biggest names in the music industry, including Bruce Springsteen, Michael Jackson, David Crosby, Jackson Browne, Stevie Nicks, Bon Jovi, Brian Wilson, Cher, Don Henley, Elton John, Michael McDonald, Phil Collins, Billy Idol, Rick Springfield, America, Heart, and the list goes on. The Lennons spent most of 2010-2013 as backing vocalists performing in the 219 show, record-breaking worldwide arena and stadium tour of "Roger Waters' The Wall" (Pink Floyd). Venice was invited to join such artists as Bruce Springsteen, Bonnie Raitt, Don Henley, Ben Harper and Lyle Lovett in contributing a track to the 2014 compilation album, Looking Into You: A Tribute To Jackson Browne.

The Venice hybrid of folk/rock/soul is relevant, alive, and still growing, with many fans worldwide considering them the torchbearers of the Southern California sound.

During the upcoming tour in the spring of 2025, the band will, in addition to performing well-known crowd favorites, also play songs from their 2024-released album "Stained Glass" as well as from their brand-new album that will be released in the spring of 2025.

During the concerts in April and 2024, Venice will take the stage as a 'full electric band'. The evening will traditionally conclude with a Meet & Greet with the band.
